Whirlpool components

Electronic control panel U33T - program Rhassoul

Electronic control U33T-program Rhassoul is specially adapted for steam baths Rhassoul. Steam bath Rhassoul utilizes the healing effects of mud and warm moist air. Moroccan clay and water create a pleasant gel consistency which is applied on the body and subsequently washes off by showering.

Upon entering of the steam bath by pressing the button (the button flashes) is activated the program with a set time delay from 13 to 20 minutes (clay is applied to the body at this time). Then program automatically turns on the shower (jets, light, etc.) from 3 to 10 minutes for remove the clay from the body (button flashes). Button lit after completing of the program.

Program - 1 input with indication and 3 outputs 230 V AC,(max. 8A)
- button lit when idle
- after pressing button - dwell time ON and button flashes
- after dwell time - 3 inputs ON , the button still flashes.
- additional press of button can be shut down running program at any time
- after the set time will return to the idle state (outputs OFF, button lit)

Areliable product, troublefree service.
