

SLIM light chromotherapy , stainless steel AISI 316

Light chromotherapy RGB LED with IP68 in stainless steel finds application not only for massage tubs, steam rooms and massage pools. The advantage is the possibility of placing these lights under water and low energy consumption, only 5W. You can connect one or two lights to V1RGB electronics. For example for 6 pcs lights, you have to use electronics 1x V1RGB and 2x expansion module EXT RGB. Easy control is possible using our supplied piezo buttons. You can change color lighting according to the mood or location of lights. This light will find application not only in the wellness facilities.

A reliable product, trouble-free service.
