

## Sets for control of wellness facilities

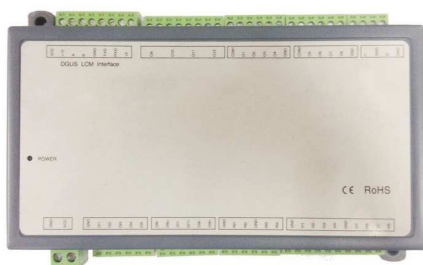

The control unit and the touch screen display with the LCM module have a multifunctional use. They can control and display the values on the display for a Finnish sauna, a Steam sauna, a Bio sauna, a whirlpool or a combination thereof.

The above equipment can also be used to measure temperatures or levels. The advantage is versatility and the ability to program the software according to specific customer requirements.

Touch screen display - 6 - 15 V DC  
 - display size 4,3"  
 - dimension 129 x 87 mm

**Reliable product, trouble-free service.**
