

4-elements bath-tub mixers in the luxurious minimalist design

Our offer of the bath-tub mixers has been extended for the new 4-elements bath-tub mixers in luxurious minimalist design that makes the particular components united with the bath-tub surface. They are available in the edgy and round version. Bath-tub mixer, spout (it is not a part of the set) and shower can be installed on any acrylic bath-tub, which has sufficiently wide border. Particular components can be installed together or separately anywhere on the bath-tub border (it is connected with the flexi hose-pipes).

Functions:

- regulation of warm water
- regulation of cold water
- switcher - shower/spout (it is not a part of the set)

Set to simplicity, elegance and luxurious design...
