

Spout SH1001

Ultra slim spout SH1001, which replaces classical spouts installed on the edge of the baths, will certainly take your attention for its luxurious and supertemporal design. Thanks to its 6mm high only it is fully integrated with the vertical side of the bath. Its unique installation on the vertical side of the bath will provide you more space and will give your bath smart and very luxurious design. This solution is also very functional and minimizes the possibility of injuries that can happen with the classical spouts.

The spout SH1001 will enrich your bath with very modern and smart look.

Material: Brass/chrome

There is a beauty in simplicity...
