

Button ring for electronic touch + plate for controllers

The new set of button rings for electronic touch excels in thin design (the high above the bath-tub is only 4 mm). In projection period we were also thinking about the simplicity of the installation and the possibility for the easy change (the TM button is sticked by the silikon, without using any nuts). In the combination with the plate for controllers (e.g. with the pneumatic button), the whole set looks very modern.

Button ring for electronic touch

	122141	ABS, radius, dia. 46 mm, chrome	6.69 EUR (excluded VAT)
	122142	ABS, radius, dia. 46 mm, white	5.9 EUR (excluded VAT)
	122151	ABS, edge, dia. 44 mm, chrome	6.69 EUR (excluded VAT)
	122152	ABS, edge, dia. 44 mm, white	5.9 EUR (excluded VAT)

Plate for controllers

	180301	ABS, radius, chrome	2.33 EUR (excluded VAT)
	180302	ABS, radius, white	2.33 EUR (excluded VAT)
