

DECOO jet

NEW luxurious brass escutcheon in attractive slim design is now being released!

In order to achieve modern look along with functionality and slim design to minimize the shape interference in bath-tubs we developed a new escutcheon DECOO which is now being offered to our customers. The jet has been successfully tested in our systems offered in Czech Republic and now the product is being released for the foreign markets.

The escutcheon has been designed to fit our Venturi minijet fitting SAPHO Hydro&Air has been offering many years.
