

## Chromotherapy

Chromotherapy becomes demanded accessories of whirlpool bath-tubs. Our current offer (catalogue number 130201 and 130202) has been extended with another type since February 2008. Besides the favourable price this light offers 18 colour LED diodes combining 3 basic colours. Red, green and blue light are controlled by means of electronic button. The control provides periodical blending of colours or changing each colour and their combinations. Controlling electronics and power adapter are part of the supplied chromotherapy and it is included in price.

It is possible to use electronic button offered in our catalogue (c. n. TM10)
